

# Screwed Tip Linear Roller

Very tough linear roller, designed for use in bridge saw cutting machine.

## MATERIALS

Granite / GR

Concrete / CON

Marble / MR

## MACHINES

Bridge Saw

## OPTIONS

Sizes

Ø 325x120mm

Coupling

50mm

60mm

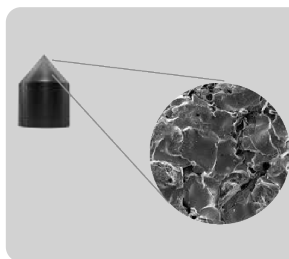

Screwed Tips

## TECHNOLOGIES

**THERMOPRESS®**

Innovative system of **vulcanized by hot pressing** used in the manufacture of technical tools. It overcomes the traditional construction system, **avoiding defective welds** and **manufacturing failures**.

Linear system with **high tips performance** manufactured 100% with **Tungsten carbide**. Its hardness between 8.5 and 9.0 on the Mohs scale ensures a product with the **highest possible resistance**, close to the diamond.

Its ease of **self-assembly** using **interchangeable Screwed Tips** makes this product the most economical and fastest universal solution on the market.

Balancing system for portable tools. **Eliminates vibrations and protects machinery** against possible breakdowns. It also substantially increases the useful life and precision of the tools.

Production of specific rollers by demand.

This product does not contain prohibited substances according to the regulation (CE) n°1907 / 2006.
