

PLATO ARENADOR SANDBLAST PLATE

Plato Arenador muy robusto, con tecnología propia aplicada, adaptable a todas las máquinas del mercado

Very robust sandblasting plate, with its own applied technology, adaptable to all machines on the market.

Ref. 061106

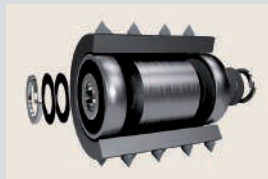

| MATERIALES / MATERIALS | MÁQUINAS / MACHINES | SECTOR / SECTOR |
|------------------------|---------------------|---|
| ✓ MÁRMOL / MARBLE | | TALLER DE PIEDRA STONE FABRICATOR |
| ✓ TERRAZO / TERRAZZO | | |
| ✓ GRANITO / GRANITE | | |
| ✓ CUARZO / QUARTZ | | |

TECNOLOGÍAS / TECHNOLOGIES

Basic®

Estructura blindada que **no precisa mantenimiento** y asegura un funcionamiento perfecto bajo cualquier condición y durante toda la vida útil de los rodillos.

Maintenance-free armoured structure ensures perfect operation under all conditions and for the entire service life of the rollers.

CLOSE TECH®

Sistema arenador con **virutas de alto rendimiento, 100% Carburo de Tungsteno**. Mediante la fabricación con dispersión electrostática mecánica cerrada, conseguimos herramientas con un **desgaste muy bajo, y la máxima precisión**.

Su dureza entre 8,5 y 9.0 en la escala de Mohs asegura un producto con la **máxima resistencia** posible, cercana al diamante.

Sandblasting system with **high performance chips, 100% Tungsten Carbide**. By manufacturing with closed mechanical electrostatic dispersion, we achieve tools with **very low wear and maximum precision**.

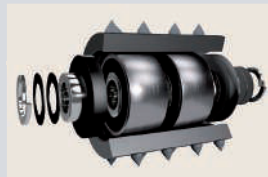

Its hardness between 8.5 and 9.0 on the Mohs scale ensures a product with the **highest possible strength**, close to diamond.

PLUS®

Estructura interna con **"doble blindaje"**, preparada para soportar las **máximas cargas**. **No precisa mantenimiento** debido a su construcción interna muy robusta autolubricada y a su geometría estructural. Recomendado para **piedras muy duras**.

"Double-shielded" internal structure, prepared to withstand **maximum loads**, **maintenance-free** due to its very robust self-lubricating internal construction and its structural geometry, recommended for **very hard stones**.

Su facilidad de **automontaje** mediante **rodillos intercambiables** hace de este producto la solución universal más económica y rápida del mercado.

Its ease of **self-assembly** by means of interchangeable rollers makes this product the most economical and quickest universal solution on the market.

ACTIVE SHOCK® SYSTEM

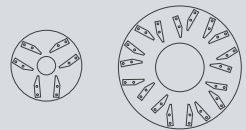

Revolucionario **Kit Axial** gracias al cual es posible **absorber eficazmente los golpes** que reciben los rodillos durante su trabajo.

Revolutionary **Axial Kit** which allows to **effectively absorb the shocks** that the rollers receive during their work.

Fijación universal tipo Frankfurt, con **enganche rápido**, adaptable a todas las máquinas del mercado.

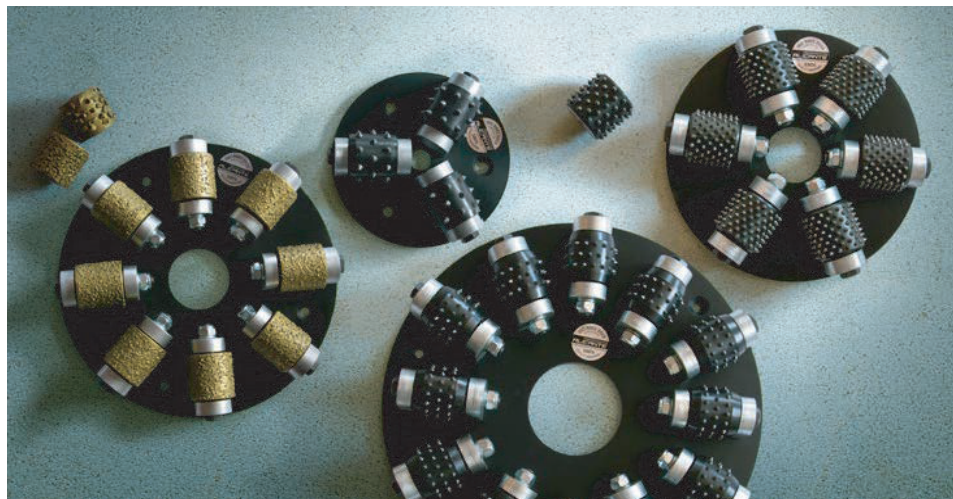

Universal fastening type Frankfurt, with **quick coupling**, adaptable to all machines on the market.
